

Frederic Labadie

Senior Product Data Analyst

+31 6 13 82 86 35 | Frederic.Labadie@gmail.com | linkedin.com/in/frederic-labadie

Amsterdam, Netherlands | EU Work Authorisation | Available Immediately

PROFESSIONAL SUMMARY

Senior data analyst with 14+ years owning complex analytical initiatives end-to-end — from defining the approach and building scalable data solutions through to translating findings into the product and commercial decisions they support. Advanced SQL and Python applied daily. Product analytics depth: 11 Amplitude certifications including both Expert tracks (Analysis and Data Management); hands-on funnel analysis, feature adoption measurement, and e-commerce conversion analytics across multiple product environments. Proven track record establishing data standards, driving single-source-of-truth adoption, and shifting organisations from gut feel to evidence-based decisions. Amsterdam-based, EU work authorisation, available immediately. MSc in Data Analytics. Portfolio: fredericlabadie.com.

CORE SKILLS

SQL	Advanced, 8+ years daily: complex queries, window functions, funnel queries, cohort analysis, data mart construction, BigQuery dialect
Python	pandas, numpy, scipy, matplotlib, requests — data analysis, pipeline scripting, API extraction, statistical testing
Product Analytics	Amplitude (11 certifications: both Expert tracks — Analysis and Data Management; Specialist: Experiment, Marketing Analytics, Data Cleanup; Practitioner: Retention, Acquisition, Monetization)
BI & Looker	Looker Studio (advanced, primary); Looker enterprise: working knowledge; BigQuery-native dashboarding; SSRS (advanced); Tableau (working knowledge)
Data Engineering	BigQuery/GCP (advanced), dbt (Fundamentals certified Apr 2026), Python pipelines, Snowflake (working knowledge), GitHub
Analytics Platforms	GA4 (advanced, certified) incl. enhanced ecommerce + checkout funnel; Adobe Analytics (Business Practitioner); Mixpanel (vendor evaluation)
AI & Tooling	Claude API in production (error alerting + workflow automation); Anthropic certified: MCP, Claude Code, Agent Skills (May 2026); Vertex AI (Prompt Design certified)
Standards & Governance	Single-source-of-truth KPI framework design, data contract definition, quality monitoring, cross-functional metric alignment, knowledge sharing and documentation

WORK EXPERIENCE

Analytics Architect	2024 – Present
<i>Telus Digital — Digital Product Consultancy Remote (multi-client: e-commerce, B2B SaaS, consumer electronics, travel)</i>	
- Own high-impact analytical initiatives end-to-end for enterprise clients: define the approach, build scalable data solutions in BigQuery, and deliver findings that directly influence product and commercial strategy. - Set data standards from scratch: define data contracts, standardise metric definitions, establish single-source-of-truth KPI governance, and implement quality monitoring that makes reported numbers trustworthy. - Translate complex analysis into clear technical and commercial narratives for senior leadership; one multi-touch attribution model changed a client’s channel budget allocation based entirely on the data. - Apply AI tooling in production: Claude API + Amplitude AI agent for real-time monitoring; Python pipeline extracting Braze data via API, eliminating 8 hours/month of manual work. - Mentor client-side analysts: methods, code quality, documentation, and stakeholder-facing delivery; deliver knowledge-sharing sessions across product and engineering teams.	
Email & SMS Analytics Manager	2023 .. 2025
<i>Micro Center Inc. — Consumer Electronics Retail Remote (concurrent with Telus Digital)</i>	
- Built product and customer analytics for a high-volume e-commerce platform; designed A/B tests achieving 10.8% YoY CTR and 5.8% open rate improvement. - Led full migration to Bloomreach CDP — rebuilt customer data model, event schemas, and segmentation logic.	

Analytics Architect / BI Developer

2018 – 2023

Stanley Steemer Inc. — National Franchise Service | 280 locations

- Built the organisation's entire analytics infrastructure from scratch — data architecture, automated SQL/BigQuery pipelines, BI dashboards, and the KPI framework that became the standard for how data was used across 280 locations.
- Led GA4 beta implementation and early GTM server-side programmes; implemented enhanced ecommerce tracking, checkout funnel measurement, and CAPI for server-to-server conversion attribution.
- Drove data culture adoption with leadership that had operated on intuition; established A/B testing culture from zero.

Web Analyst / Digital Business Analyst

2015 – 2019

Designory / TBWA Worldwide & Xivic, Inc. — Digital Agencies

- Delivered product and campaign analytics for Subaru (primary) and other clients; A/B testing with VWO and Optimizely; translated complex data into executive-ready QBR narratives.

Digital Communication Specialist

2011 – 2015

Melody Health / Planned Parenthood — National Nonprofit

- Built analytics infrastructure from scratch; data-driven growth from 20,000 to 50,000 subscribers through funnel analysis and optimisation.

EDUCATION

Master of Science, Data Analytics — 2020-2023

Western Governors University

Data Science Continuing Education Certificate — 2018

University of California, Irvine

Bachelor of Arts, Strategic Communications — 2006-2011

The Ohio State University | Minors: Professional Writing, Philosophy
