PROFILE

Analytics architect with 14+ years specialising in UX telemetry and behavioural measurement. Expert in the full instrumentation chain: **question framing** → **tracking plan** → **implementation** → **insight**. Eleven Amplitude certifications including both Expert credentials (Analysis and Data Management). Trained in **Sense-Making Methodology (Dervin)** — applied across three employers to structure what to measure before deciding how to measure it.

SKILLS

TELEMETRY Amplitude (11 certs incl. both Experts) · GA4 (certified) · Adobe Analytics (Business Practitioner) · GTM client- & server-side · Adobe Launch · event schema design · SDR authoring

RESEARCH Sense-Making Methodology (Dervin) — focus groups, UX question design, user testing · A/B test design & statistical evaluation · Hotjar · SurveyMonkey

DATA BigQuery (advanced, 8+ yrs) · SQL (advanced, daily) · Python (pandas, scipy) · dbt Fundamentals · Looker Studio · Databricks Fundamentals

GOVERNANCE OneTrust (3 orgs) · GDPR- & CCPA-compliant data collection · consent architecture · data quality monitoring

Analytics Architect · Telus Digital

2024 – Present

Multi-client consultancy · clients in consumer electronics, B2B SaaS, e-commerce, travel

- Lead end-to-end telemetry engagements: measurement planning, event schema design, SDR authoring, GTM deployment (client- and server-side), QA, and reporting.
- Built and operated an **AI-assisted alert triage system** for client product telemetry. V1 compressed **230 raw Amplitude alerts to 39 findings (83% reduction)** while preserving human-judgement gates. **Surfaced one critical feature failure missed in human-only review.**
- Lead A/B testing programmes end-to-end: hypothesis framing, guardrails, sample sizing, statistical analysis, and stakeholder-ready synthesis.

Analytics Architect / BI Developer · Stanley Steemer Inc.

2018 – 2023

National franchise service, 280 locations · Dublin, OH

- Led GA4 beta implementation end-to-end: measurement plan, SDR, data layer spec, GTM, and full QA against production data before migration from Universal Analytics.
- Applied **Sense-Making Methodology (Dervin)** in user-testing sessions; combined with Hotjar and SurveyMonkey to build triangulated user-needs evidence that fed directly into tracking specifications and UX recommendations.
- Designed data architecture bridging GA4 → BigQuery export into reporting layer; built Python ingestion pipeline and established the KPI framework giving leadership its first reliable cross-location performance view.
- Implemented OneTrust across the full digital estate for GDPR- and CCPA-compliant data collection.

Digital Business Analyst · Xivic, Inc.

2018 – 2019

Digital agency · Los Angeles, CA

- End-to-end telemetry implementation for SPA products: data layer specs, GTM with custom JavaScript, Enhanced Ecommerce, and SDR-driven QA.
- Built cross-domain tracking, custom dimension mapping, and conversion event schemas; troubleshoot using browser dev tools and Omnibug.

Web Analyst · Designory / TBWA Worldwide

2015 – 2018

Global advertising agency · Long Beach, CA · clients include Subaru of America, Securitas, Booz Allen Hamilton

- Led GTM migrations and tracking architecture upgrades; wrote data layer specifications and deployed custom tag implementations across multiple client digital estates.
- Applied **Sense-Making Methodology (Dervin)** in UX question design and user testing for brand clients; implemented OneTrust at agency level for GDPR-compliant consent management.

Digital Communication Specialist · Melody Health / Planned Parenthood

2011 – 2015

National nonprofit · Santa Ana, CA

- Facilitated focus groups using **Sense-Making Methodology (Dervin)** to structure user-needs research for brand positioning and content strategy.
- Built analytics and BI reporting infrastructure from scratch for the brand launch; **grew subscriber base from 20,000 to 50,000** through funnel analysis and optimisation.

EDUCATION

MSc, Data Analytics · Western Governors University

2020 – 2023

BA, Strategic Communications · The Ohio State University

2006 – 2011

Trained in Sense-Making Methodology (Dervin) under Prof. Brenda Dervin, OSU · Mar 2011

CERTIFICATIONS

AMPLITUDE (11)

Expert — Analysis · May 2026

Expert — Data Management · May 2026

Specialist: Marketing Analytics, Experiment, Data Cleanup · Mar 2026

Practitioner: Retention, Acquisition, Monetization · Mar 2026

Foundations: Analytics, Experiment, Data Management · Mar 2026

RESEARCH METHODOLOGY

Sense-Making Methodology (Dervin) · The Ohio State University · Mar 2011

Decision Science Fundamentals · LinkedIn · Aug 2025

Foundations of Neuroscience · Johns Hopkins · Apr 2026
